Company overview

Bull Trend Brokerage Limited was founded in 1997 and proved to be one of the first investment intermediaries being licensed in Bulgaria. Over the past 13 years the company has proved to be, first and foremost, a client-oriented organisation, which focuses on the needs of each particular customer.

Bull Trend Brokerage Limited is a member of the Bulgarian Stock Exchange PLC, Central Depository PLC and the Bulgarian Association of the License Investment Intermediaries.

The company offers a broad range of services to a diversified client base that includes private clients, small businesses, financial institutions & corporations and high networth individuals.

A good place
for business

The Management board is made up of tested professionals and very successful business leaders in different sectors of the economy. The Board is ably assisted by a dedicated team of industry professionals and experienced managers committed to providing world class standards in the Bulgarian Capital Market.

From the very first months of its existence Bull Trend Brokerage has been known as a leader, one of the most established and competent financial institutions, playing a major role in the establishment of the market infrastructure.

Nowadays Bull Trend Brokerage Limited is a part of a larger financial group, which includes in its structure an investment intermediary, a licensed financial house (www.fbclogos.com) and three mutual funds (www.bacm.bg).

The companies offer a variety of financial services and products suitable for different kinds of investors.

Therewith we are able to cover the full range of non-banking financial services that provide limitless possibilities for your money, assets and ideas.
